PROFESSIONAL PROFILE

Please view samples of my work on my website at: <http://keitheng.net>

I hold 13 years of professional experience in video/film with a regional Emmy Award for post-production. My career spans a range from small studios to industry leaders like NBC Universal.

I have produced, directed and edited several festival winning shorts and commercials as well as a recently completed sci-fi film called *Escape from North Korea*. The film won multiple awards in the festival circuit at some of the nation's top film festivals. I have strong experience working with teams to produce an outstanding end result under a singular vision. At the same time, I am a jack-of-all-trades that can also work solo if needed.

I am known to work fast, efficiently, and reliable under pressure. Attention to detail and communication are never overlooked. Most of all, nothing brings me more joy than cultivating relationships where creativity can thrive and most importantly, the work shines.
